Digital Multifunctional System

Give Office Efficiency a Boost with a Productive, Network-Ready Solution

● 3-in-1 Performance

The AR-6031N/6026N accommodates A3 paper and packs three business-essential functions—copy, print, and colour scan—in one sturdy unit.

● Network-Ready

Standard-equipped with network printing and network TWAIN function, the AR-6031N/6026N comes ready for use as part of a small workgroup.

● Built-In Duplexing

The built-in duplex module makes two-sided copies and printouts to effectively save paper and filing space, and an optional RSPF can ensure efficient document feeding.

1 User-Friendly Control Panel

With its large, clear LCD, the logically designed control panel makes it easy for users to understand and access MFP settings and functions and brings total ease of use. The control panel also features buttons that provide quick access to frequently used functions. And two LED lamps—one red and the other green—light up to notify users of machine status.

2 Built-In Duplex Module and Optional RSPF

The AR-6031N/6026N can make **two-sided copies and printouts** using its built-in duplex module. Adding the optional **100-sheet RSPF** (reversing single pass feeder) brings even greater copy/scan efficiency.

3 Large Paper Capacity

While the AR-6031N/6026N comes standard with two 500-sheet paper trays and a 100-sheet multi-bypass tray, it can also accommodate extra 500-sheet paper trays for a total paper capacity of **2,100 sheets**.

4 5 A Variety of Copy Functions

The AR-6031N/6026N comes standard with functions that make copying more convenient: **ID Card Copy** (for easy copying of both sides of a card onto a single page), **Rotation Sort**, Margin Shift, Edge/Centre Erase, 2-in-1, 4-in-1, and more.

6 Convenient A3 Colour Scanning

The AR-6031N/6026N works as a **full-colour A3 scanner** to facilitate document management. Its **Scan to USB** function enables direct scanning to a USB memory device, and its **network TWAIN** function allows remote scanning from networked PCs. And with the optional **Sharpdesk** software, scanned documents and PC-created files can be efficiently managed on a PC.
7 Sharpdesk Mobile*

Sharpdesk Mobile is a mobile print/scan application. With Sharpdesk Mobile, users can import documents scanned on the AR-6031N/6026N to their mobile devices for previewing and saving. And files on a mobile device can be printed out on the MFP, sent as e-mail attachments, or used in other applications.

* Available at a later date. Availability varies by country/region. For details, see Sharpdesk Mobile support website: http://sharp-world.com/products/copier/docu_solutions/mobile/sharpdesk_mobile/ AR-6031N/6026N must be connected to commercially available wireless LAN router, and to print, have optional AR-PB10 installed. To print PDF files, optional MX-PK10 must also be installed.

Other Key Features

• Auto paper/magnification selection
• PDL is upgradeable to PCL 6 and PostScript® 3™ emulation
• Auto tray switching
